

New IST team formed in Colombia

Madrid, June 16th 2021- Investigation Service Technologies -IST- the benchmark forensic engineering firm with a solid presence in Spain, Portugal and Latin America, is reinforcing its operations in Colombia with the creation of a team of multidisciplinary specialists, to consolidate IST's business both in the local market and the North LATAM regional market.

The team will be led by IST's new country manager in Colombia **Juan Carlos Cifuentes**, an Industrial Engineer with a Specialist Degree in Project Management from EAN University (Bogotá) and extensive experience in team management and the execution of customer-focused technical projects.

He will be supported by various specialists so that they can continue to provide an excellent service to the local and international Market, both for the Insurance Sector and for Companies and Entities that need to establish the root causes of the events they suffer to avoid their reoccurrence.

The IST Colombia team is formed by engineers and graduates who are highly specialised in different fields such as: **energy, industry, logistics, construction, safety, environment and product quality**. Juan Carlos will be reporting to **Gerardo Rodríguez**, IST's General Director.

About *IST*

Investigation Service Technologies -IST- the forensic engineering firm founded in 1995, is the benchmark company in cause study and analysis for breakdown claims, with a solid presence in Spain, Portugal and Latin America, where they operate their own offices. The workforce is highly specialised, with extensive experience in fields as diverse as: fire and explosions, machinery breakdowns, defects in construction and civil works, IT and cyber-risks, occupational hazards and accidents, environmental emergencies and incidents in the agrifood industry.

IST also provides consultancy services on potential industrial and environmental risks, carrying out risk inspections and safety audits that help to prevent losses in these areas. Their clients include the leading insurance companies, insurance brokers, adjustment firms, law firms and industrial corporations.
